Technical Skills

Likes: jss progressive-web-apps less sass css javascript reactjs webpack html5-audio webvr user-experience developer-experience

Dislikes: angular

Experience

Sr. Front-end Developer – SmartRecruiters   *Nov 2020 → Current*
express, javascript, node.js, reactjs

Migrating the jobpal (acquired by SR) product to SmartRecruiters platform.

Sr. Front-end Developer – jobpal   *Nov 2018 → Nov 2020*
reactjs, react-redux, neutrino, react-testing-library, jestjs, mongoose, express, material-ui

In charge of the B2B dashboard (based on ReactJS) development and maintenance.

Lecturer – Devugees   *Jul 2017 → Jan 2018*
javascript, css, sass, neutrino, webpack

Teaching front-end development fundamental, writing exercises and establishing the curriculum for the students.

UI core developer – Camunda   *Jan 2014 → Mar 2017*
gruntjs, angularjs, twitter-bootstrap, html5-canvas, camunda

Designing, developing and aring about UI of the Camunda BPM platform webapps, documentation and blog.

Front end developer – myDriver   *Apr 2013 → Oct 2013*
backbone.js, sass

In charge of the building a new web UI before the company moved the IT to an other location.

Developer – Freelance   *Oct 2005 → Apr 2013*
drupal, javascript, css, sass, node.js, backbone.js

As a freelancer with a background in design, my jobs were very varied and equally front-end and back-end, creating small presence website as well as larger communities. I was in direct contact with customer and helped them taking decision about their needs and strategies while recommending the right tools and solutions.

Freelance web developer – Nitro Snowboards   *Mar 2010 → Aug 2012*
drupal, javascript, mysql

Creating and maintaining the Nitro Snowboard websites (multi-languages, country specific content, decent amount of products...)

Web Developer – Reset.org   *May 2008 → May 2012*
drupal, javascript, sql

Developing and maintaining the blog and donation portal based on Drupal.

Education

Multimedia design – Elkon   *Aug 2001 → Jun 2005*

I almost lived from VJing, for which I programmed my own (simple) software (in actionscript...).

Projects & Interests

Fiha – https://gitlab.com/zeropaper/fiha   *Nov 2017 → Current*
reactjs, redux, sass, web-midi, web-worker, three.js, html5-canvas

Complete rewrite of Visual Fiha VJing webapp to re-think its interface and learn the subtleties of ReactJS and other new techniques.

Visual Fiha – https://github.com/zeropaper/visual-fiha   *Oct 2016 → Jan 2018*
ampersand.js, javascript, web-midi, three.js, html5-canvas

A VJing tool which supports MIDI controls and is based on web technologies.

Readings

The Work of Art in the Age of Mechanical Reproduction – Walter Benjamin –
https://en.wikipedia.org/wiki/The_Work_of_Art_in_the_Age_of_Mechanical_Reproduction

The book is an essay of cultural criticism which proposes that the aura of a work of art is devalued by mechanical reproduction. It is not a technical book but it shades some interesting concept about the production of creative works which can be apply to digital creation.
